MICRONIC TUBE READER DT300

The affordable Micronic Tube Reader DT300 enables users to read tube and rack codes instantly. The small light-weight device is practical to carry around, easy-to-use and can read any 1D barcode or 2D Data-Matrix code on 24-, 48- and 96-well format tubes and racks. Due to its compact size and wireless operation, the DT300 offers convenient, high performance scanning anywhere where you might need it. A high capacity lithium polymer battery provides a long lasting minimum of 15,000 2D scans! Easy to recharge through a USB connection the battery will provide approximately 10-12 hours of continuous use.

MICRONIC 2D CODED TUBES

The 2D Data-Matrix codes on Micronic sample storage tubes are permanently laser etched on the tube bottom so that they can never wear or fall off. Due to the optimal symbol contrast, modulation and print growth, and Micronic's 100% quality control on all 2D codes, the 2D codes can be easily read by scanners and readers. The 2D Data-Matrix codes are guaranteed unique and also have a human-readable code for secondary identification. The special custom 2D code service from Micronic enables customers to choose their own prefix of three digits which are followed by ten predefined digits which are also guaranteed unique.

Parameter	Micronic Tube Reader DT300
-----------	----------------------------

Connection	Via Bluetooth USB Dongle and USB Cable
------------	--

Scan time	< 1 second
-----------	------------

Weight	80 grams / 0.17 lbs
--------	---------------------

Tube/rack code reading	2D Data-Matrix codes and 1D barcodes
------------------------	--------------------------------------
